

Hydraulic Drum Stackers with Scale

1. Ergonomic solution for lifting, transporting, weighing and placing drums on pallets;
2. With Scale, which can control pouring & measure capabilities, accuracy: $\pm 3\%$;

Model	DT400A-1	
Loading weight	kg	400
Net weight	kg	151
Wheel Dimension	mm	$\varnothing 150 \times 50$
Inner/Outer Width of Front Leg	mm	630/810
Outline Dimension	mm	1100*900*2100
Turning Radius	mm	1300
Lifting Height	mm	1500

Hydraulic Drum Rotators

1. Multi-function of lifting, transporting, rotating, tilting and weighing drums;
2. Special rolling technology manufactured C-shaped steel frame;
3. Combined Eagle-grip structure and Anchor ear structure together, is suitable for steel drums and plastic drums;
4. Manually hand rotate drums 180 degree, and can keep drums at any angle

Model	DA450-1	
Load capacity	kg	450
Net weight	kg	191
Lifting height	mm	1500
Pouring height	mm	1580
Caster dimension	mm	$\varnothing 150 \times 50$
Inner/Outer width of front support legs	mm	630/810
Overall size	mm	1400*1000*2100
