

## Electric Pallet Trucks, Powered Pallet Trucks

We supply high quality electric pallet trucks and offer semi-electric and fully powered pallet trucks in a variety of lift capacities. Some models are light enough to be used on lorries and vehicle tail lifts. Our heavy duty powered trucks can be supplied with easy remove batteries, for double shift warehouse applications where battery rotation is required.

**SINOLIFT**  
For material handling

**ET15MH** for medium pallet handling applications  
SEMI-ELECTRIC HAND PALLET TRUCK WITH LITHIUM BATTERY  
ISO9001 CE

Characteristics					
Model designation	/	ET15MH	Load center	c (mm)	600
Drive unit	/	Battery	Load distance (Raised/ Lowered)	x (mm)	889/946
Operator type	/	Walkie	Wheelbase	y (mm)	1170/1240
Load capacity	Q (kg)	1500			
Weights					
Service weight (Incl. battery)	kg	130			
Wheels, Chassis					
Tyre type	/	PU/ PU	Tyre size, load side	/	2x80x60
Tyre size, operator side	/	Ø210x70	Wheels, number operator/load side (x=drive wheels)	/	1x/ 2
Dimensions					
Lift height	(mm)	200	Overall width	(mm)	540 680
Fork height, lowered	(mm)	85	Fork dimensions	(mm)	540x1150x54/680x1220x54
Overall length	(mm)	1540/1610	Outer turning radius	(mm)	1320/1390
Performance					
Travel speed, laden/ unladen			km/ h		4/ 4.5
Maximum gradeability, laden/ unladen S2 5 min.			%		3/20
Drive					
Drive motor rating S2 60 min.			kW		0.65
Lift motor rating at S3 15%			kW		0.84
Battery voltage/ rated capacity (5h)			V/Ah		24/ 20 Li-Battery
The maximum allowed size of battery			mm		170x85x215
Battery weight			kg		3
Others					
Type of drive control	/	DC	Sound level at operator's ear	dB (A)	70
Steering type	/	Mechanical			

*Easy Lift, Easy Life!*

## Semi-Electric Pallet Truck

- Lithium battery
- Smarter Body
- More Powerful
- More Portabel
- User Friendly
- Minimum Maintenance

Introducing the HYBRID SEMI-POWER PALLET TRUCK. This is a truly UNIQUE product on the market. It is self-propelled, but a manual lift pallet truck. As stated, it is truly unique. It will work as a power pallet truck, and enable the operator to move palletized cargo quickly with this small, easily maneuverable machine. It is so light and easy to move around, a child virtually can operate it easily. It looks and weighs the same as a manual pallet, but it is SELF-PROPELLED!

It has the ease of operation of a power pallet, with the lower cost of a machine that moves cargo over large spaces easily so the operator will not get tired. It just needs to be guided, you do not need to push or pull it. The other benefits are the low cost to purchase, combined with maintenance-free operation, and it will work up to 4 hours on a charge. You can simply change out the battery and continue working with the easily replaceable lithium battery (please see pictures). This machine is a hybrid between a full size power pallet at a much higher price, with a lot of maintenance, to this unit that is self-propelled, with NO maintenance.

Manual stroke

Ergonomics Designed Handle, Smart, Compact and Comfortable

**Intelligent Charger**  
Quick charging, Only 5hr ~ 2hr

**Portable Lithium Battery**  
3kg/6.6 Lbs weight only, 20 seconds quick change, 2 years warranty

**Tidy and Clear Harness**  
the electric pallet truck's harness is highly simplified, and the non professional person can also repair

**Reinforced Forks**  
Laser cutting, High Strength, Easier entrance/exit design for pallet, also for double pallet

**Load Rollers**  
High performance Polyurethane load rollers, for quiet running and better grip. Single load rollers are option

**Unique operating interface**  
Integral design of key switch and emergence stop. Safety and easy to operate

**Reliable Drive Unit**  
High quality motor, UK origin PG controller and robust drive wheel

Upgrade your hand pallet truck. Safely negotiate ramps and inclines with power drive and electric brake

- Model ET15MH -- Max. load capacity: 1500kg
- Ideal fork dimensions: 1150mm x 540mm perfect for handling most types of pallets
- Electric drive
- Modern, compact ++ light design makes the SPR15L suitable for application in a variety of warehouses, supermarkets and even on large lorries
- Very light at 135kg including battery
- Brand new maintenance-free, pollution-free battery that is longer discharging and requires significantly shorter time to recharge than previous models
- Horn
- Battery Gauge
- Spare battery available

BATTERY GAUGE

24V/20A EASY CLICK ON/OFF LITHIUM BATTERY (NO TOOLS REQUIRED)

**Premium Features**

- Horn and Emergency Stop
- Forwards & Back Buttons
- Turtle & Rabbit Speed Switch
- Tandem Roller Wheels
